

CAPABILITY STATEMENT

Yacht Side Services Cosmetic Yacht Refit Capabilities

Assessment, fabrication, installation and project coordination for large-yacht cosmetic refits

One team for the yacht's cosmetic refit scopes

Yacht Side Services coordinates field verification, product selections, fabrication and professional installation across exterior upholstery, enclosures, decking, bedding and refined interior finishes.

Core capabilities

- Exterior and interior yacht upholstery
- Canvas covers and exterior protection
- Custom bedding, linens and yacht mattresses
- Wallpaper and specialty wallcoverings
- Polycarbonate, rigid acrylic and premium clear-vinyl enclosures
- Flexiteek synthetic teak decking
- Blinds, shades and window coverings
- Headliners, wrapped wall systems and interior flooring

Who we support

Refit facilities

Specialized cosmetic scopes coordinated around haul-out schedules, access and adjacent trades.

Brokers and dealers

Pre-listing presentation and post-purchase improvements planned around the sales timeline.

Captains and managers

Multi-scope refit coordination aligned with owner expectations and vessel operations.

A coordinated path from assessment through final review

Yacht Side Services is structured for projects that require more than a single trade. We organize measurements, access, specifications, approvals, fabrication timing and installation sequencing so clients and industry partners have a clear project path.

How we work

01 Project introduction	Confirm vessel, location, objectives, decision-makers and target schedule.
02 Onboard assessment	Verify conditions, measurements, substrates, access and scope dependencies.
03 Selections and planning	Coordinate products, specifications, approvals and installation windows.
04 Fabrication and execution	Manage production, delivery, professional installation and final fit review.

What partners can expect

Visible decisions Measurements, selections, approvals and scope changes are kept organized.	Schedule awareness Work is planned around vessel access, yard periods and operational requirements.	Accountable closeout Installation is completed with final review and resolution of outstanding details.
---	---	---

Service region

Serving yacht owners and marine-industry partners throughout the Southeast, with project coordination for vessels in yards, marinas and private locations.
